Bill Cherry, owner of Belmont Bicycles in Belmont, North Carolina and an active member of the Belmont Community was critically injured in a motor cycle accident on Monday, April 27, 2009. Bill was airlifted to CMC in Charlotte, North Carolina. On July 22, 2009, after twelve weeks and two days in the hospital Bill went home (a house that is not wheelchair accessible!) to his wife Julie and their three children. Now the fun really begins as Bill aggressively tries to regain his strength. Bill and Julie thank you all so much for everything you have done; they would have never gotten this far without your love and prayers.
